

Onvif Configuration Help Guide. (Onvif 1.02spec) Camera Builds from 44029 and greater.

(Nuuo Software v3.5 Only)

1. Nuuo software has to be running Device Pack v1.14 or greater v1.15 supports Onvif PTZ

2. Adding a camera from the main console under the *Config* option

3. Important that you select Onvif as Vendor, Auto Detect, does not always work.
You must be sure to only use the version of software as said on the first page of this document.
